

Wedding Entertainment Suggestions

Most weddings today involve a number of different kinds of entertainment, from music for the ceremony such as a string quartet or soprano singer through to close up magicians to entertain guests at their tables and of course a disco or band to dance the night away.

At Weddings Co-ordinated we have contacts with a huge range of bands and musicians, entertainers and performers. Whether you are looking for something traditional or more obscure we can find you anything from a human statue to an orchestra – and of course everything in between.

Here are a few suggestions to give you some ideas but please contact us to discuss your plans in more detail as we are sure to be able to assist.
